Attention: The letters *za* and *ṟa* denote ழ and ற, respectively, of Tamil. Also note that *ṟṟa* sounds almost like *ṭra*, *ṟṟi* like *ṭri*, and so on. The consonant-cluster *nṟa* is pronounced somewhere between *nra* and *nḍra*. It is, however, colloquially acceptable to pronounce the clusters *ṟṟa* and *nṟa* as *tta* and *nna*, respectively.
